Post Observation Reflection

Please see me to schedule a post-observation conference. Attached you will find some questions that will assist you in reflecting on the lesson before our conference.

1. In general, how successful was the lesson? Did the students learn what you intended for them to learn? How do you know?
2. How did your lesson meet the CARE criteria?
3. Which questions were the most effective? Which were the least?
4. Think about the different aspects of your instructional delivery (e.g., activities, grouping of students, materials and resources). To what extent were they effective? What data did you use to drive your instruction (IEP, ARIS, Assessments, etc.)?
5. If you had the opportunity to teach this lesson again to the same group of students, what would you do differently?
